

Hola!

Overview

100% freedom, 0% disturbance

HOLA: Our flexible, space-saving & elegant looking phone booth for one person. On casters for easy relocation. Offers a comfortable working environment. Perfect for making phone calls or participating in video conferences. Stand up booth with high table.

Sound isolation

Our booths are on average at 45 dB, for the HOLA model (being a new product) the acoustic measurements are pending, approx. 35 dB. Two-way isolation. Have your conversations in privacy without disturbing your colleagues.

Fire safety

The bricks and interior accessories / components of the booth are developed with fire retardant material to suit requirements.

Customizable & flexible

Thanks to the patented modular system you can place the windows and door in different positions. You can order our booths in all available RAL colours and change the surface colour of the desk. The options we offer give you freedom to design your work space and your work dynamics. Easy relocation thanks to its casters.

Quick & practical

Incredibly quick installation thanks to our patented modular system. Also, you can relocate our HOLA booths easily thanks to its casters. You can put several HOLA models against a window front letting the sun light pass through and making the most out of your existing space.
